CAREER OBJECTIVE

Motivated and detail-oriented first-year B.E. Computer Science and Engineering student seeking internship opportunities to gain hands-on experience in software development. Eager to apply academic knowledge to real-world projects, collaborate with industry professionals, and build a strong foundation for a technology-driven career.

EDUCATION

B.E. – Computer Science and Engineering <i>Saveetha Engineering College, Sriperumbudur, Tamil Nadu GPA: 8.5 / 10.0(current)</i>	2025 – 2029
Higher Secondary Certificate (HSC) <i>Sacred Heart Convent Anglo-Indian Higher Secondary School percentage: 90.3%</i>	2024 – 2025
Secondary School Leaving Certificate (SSLC) <i>The Claribel Matric School percentage: 90.4%</i>	2022 – 2023

TECHNICAL SKILLS

Programming Languages: C, Python (Beginner)

Web Technologies: HTML, CSS, JavaScript, Django

Version Control & Collaboration: GitHub

Design & Productivity Tools: Figma, Microsoft Office Suite (Word, Excel, PowerPoint)

Fundamentals: Data Structures (Basic), Internet & Computer Fundamentals, Problem-Solving

ACADEMIC PROJECTS

LAM Industries – Farm Industry Management Website

Technologies: HTML, CSS, JavaScript, Django

- Designed and developed a responsive website for a farm industry owner to showcase produce, services, and farm operations to potential buyers and partners.
- Built a dynamic backend using Django to manage product listings, farm inventory, and customer inquiry submissions efficiently.

Repository link: <https://leksh2907-maker.github.io/lam.github.io/>

Drive Legal – AI-Powered Road Safety Solution

Technologies: HTML, CSS, JavaScript, Django, API Integration

- Built an AI-powered road safety platform for a hackathon, designed to detect traffic violations, assist drivers with legal awareness, and promote safer driving habits.
- Integrated third-party AI APIs to enable intelligent features such as real-time violation alerts, legal clause lookup, and driver behavior analysis to reduce road accidents and improve compliance.

Repository link: <https://leksh2907-maker.github.io/drivelegal.github.io/>

AIpet – AI Talking Pet Companion

Technologies: HTML,CSS,Javascript,Python, API Integration

- Developed a fun, conversational AI pet companion that responds to user messages with quirky, humorous, and personality-driven dialogue to keep users entertained.
- Integrated natural language processing to simulate a "living" pet persona with mood states, witty responses, and playful interactions.

Repository link: <https://leksh2907-maker.github.io/AIpet.github.io/puzzle.html>

ACHIEVEMENTS

- Participated in hackathon competitions and developed "Drive Legal", an AI-powered road safety platform.
- Successfully completed AWS Academy certifications in Cloud Computing, Machine Learning, and Generative AI.

CERTIFICATIONS

- AWS Academy Cloud Foundations – Cloud Computing.
- AWS Academy Machine Learning Foundations.
- AWS Introduction to Generative AI.
- Currently pursuing technical certifications in Python Programming and Web Development (in progress).

STRENGTHS

- Quick Learner
- Team Player
- Problem Solving
- Adaptability
- Communication Skills

LANGUAGES KNOWN

- **English** (Professional Proficiency)
- **Tamil** (Native)

HOBBIES & INTERESTS

- Exploring Emerging Technologies
- Building Personal Coding Projects
- Reading Books
- Playing Outdoor Sports
- Arts & Crafts
